While the ongoing pandemic, racial injustice, and economic hardship have elevated the need for mental health services, investments have not been sufficient to afford the same quality of care for all. The current investment in expanding access to behavioral health services has not sufficiently addressed the historical disinvestment in mental health care access. **We hope you'll join us for the evening and consider sponsoring at one of the following levels to support C4 in achieving our vision – where all will have the access, care, and tools to recover from mental illness and trauma to live, work, and thrive in the community.**

Trauma can happen to anyone, so too, can healing. Treatment is a partnership between the individual, C4 staff, and a network of family and friends; this supportive atmosphere enables healing in a safe, trusted environment marked by professionalism and skill.

Join us to make hope, healing, and recovery possible for all.

Please reserve your sponsorship or ticket reservations by Tuesday, November 08.
